

mate based on surveys by the National Opinion Research Center and the Public Health Service."

Nevertheless that statistically unfounded poster, that nicely rounded statement of 100,000 doctors, was given by the clearinghouse to private agencies for distribution, wholly without qualification. Thousands and thousands of copies have been displayed throughout the country for more than a year, in the form in which I have it here.

I would like to offer this for the record at this point, if I may, Mr. Chairman.

The CHAIRMAN. Without objection, it will be included in the record at this point.

(The poster, referred to, follows:)
